Maximum Teams 16

Separate Event than Tuesday's Gold Rush Tourney

Start Time: 6 pm Central Time

This Tournament may run longer than most have run during the week, be prepared to play later due to the number of potential teams playing. Make sure your bar is planning on staying open late, that you are playing at. Matches will not be suspended due to location closure, the team playing at that location will be forfeited.

NDRT Tournament Entry Fees: \$50 per Doubles Team

- \$38 Tournament Prize Fund
- \$1 Local PRP Program
- \$4 Spectacular Saturday Prize Pool
- \$7 Processing and management fee

Gold Rush Fees (optional): \$24 per Doubles Team. This makes your team a "Prospector Team."

- Gold Rush Prize Fund: \$20 per team
- Gold Rush Seed Fee (used to create large prize pool after Mother Lode is won: \$4 per team)

YOU DO NOT HAVE TO JOIN GOLD RUSH TO PLAY THE TOURNAMENT.

Prizes:

- **Tournament Prize:** Same as NDRT
- **Gold Rush Prizes:** Multiple ways to win(only available to “Prospector Team”
 - **Mother Lode** - 100% of Gold Rush Pool: Mine Boss Team wins tournament without losing a match.
 - **Gold Nuggets** – 50% of Gold Rush Pool: Mine Boss Team wins tournament with one loss.
 - **Gold Dust** – 25% of Gold Rush Pool: Prospector Team knocks Mine Boss team into Loser’s bracket.
 - **Gold Dust** – 25% of Gold Rush Pool: Prospector Team knocks Mine Boss team out of Loser’s bracket

“Mine Boss Team”

- “Prospector Team” becomes a “Mine Boss Team” when selected by the IL Lottery’s Pick 3 drawing using the NADO formula.

Mine Boss Team Selection Process:

We will be using the Illinois Lottery Noon Drawing Pick 3 on the following day of the tournament played, using this formula.

Total Amount of possible #'s= 1000

1000/Total teams in that tournament= Range of Numbers per team.

Number drawn / Range of Numbers per team.

That Number rounded up to nearest whole number.

Use that Number to pick team on Chart starting count with Round 0 then to Round 1

000=Last Team on Board. The reason that 000=Last team on board is so that it is equal /count 000 as 1000 instead of 0

Example 1:

13 Teams>>Lotto number is 500

1000/13=77 500/77= 6.49>>7th Team

Example 2:

9 Teams>>>Lotto Number is 395

1000/9= 111 395/111= 3.55>>>4th Team

Example 3:

18 Teams>>>>>Lotto Number 196

1000/18=55.55555 196/55.55555= 3.52 >>>4th Team
